

## ZNRF2

Full Name:

**ZNRF2 phospho Ser 19**

Long Name Text:

**Zinc And Ring Finger 2**

Immuno Sequence:

**CGRTRAYS\*GSDLPS [residues 13 - 25 of human]**

Phosphopeptide:

**CGRTRAYSGSDLPS [residues 13 - 25 of human]**

Sheep No:

**S611C**

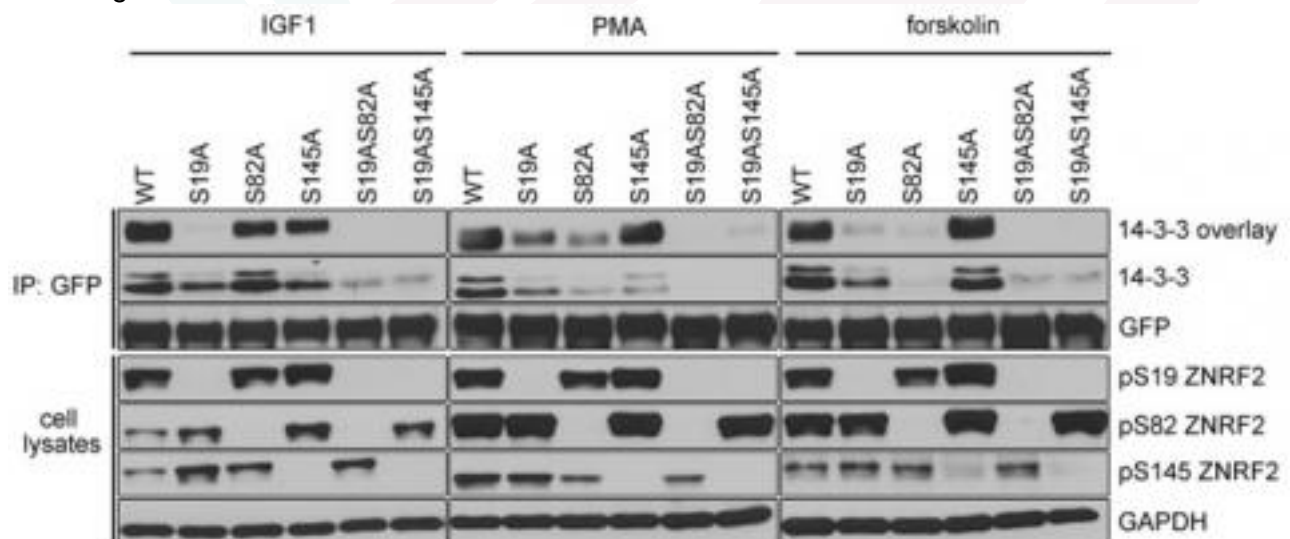

Monoclonal/Polyclonal:

**Polyclonal**

Purification Method:

**Affinity purified against phospho specific peptide.**

Gel Image:

***GFP-ZNRF2 wildtype or single / double serine to alanine mutants isolated from transfected HEK293 cells that had been stimulated with IGF1, PMA or forskolin as indicated. ZNRF2 expression and phosphorylation (pSer19, pSer82 and pSer145) was analysed by immunoblotting of cell lysates (30 ug).***

Publication:

[ZNRF2 is released from membranes by growth factors and, together with ZNRF1, regulates the Na<sup>+</sup>/K<sup>+</sup>ATPase.](#)

Price per aliquot (100µg):  
**£110.00**
