

SIK1

Full Name:

SIK1 (577 - 592)

Long Name Text:

salt inducible kinase 1

Immuno Sequence:

CTSLTQGLKAFRQQLRK [residues 577 - 592 of human]

Aliases

SIK1

Sheep No:

S306D

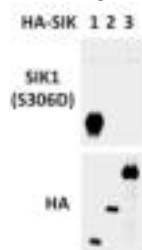

Monoclonal/Polyclonal:

Polyclonal

Purification Method:

Affinity purified against peptide.

Gel Image:

HEK293 cells were transfected with vectors encoding HA-SIK1, HA-SIK2 or HA-SIK3. Cell extracts were then blotted using the anti-SIK1 (577 - 592) S306D. This antibody detects SIK1, but does not detect SIK2 nor does it detect SIK3. This antibody works well with overexpressed protein.

Price per aliquot (100µg):

£110.00
