

## Antibody Quality Control of non-phospho antibodies:

Name of Antibody: SGK2

Sheep Number: S036D

Bleed Number: 1-3

Date Purified: N/A

### Immuno Blotting:

Does it recognise endogenous protein without immunoprecipitation: No, only HEK 293 lysate tested. Recognizes HA-tagged transiently over-expressed protein in HEK 293 cells. 3<sup>rd</sup> bleed is the best.

Concentration used: 1ug/ul

### Immunoprecipitation:

Does it immunoprecipitate endogenous protein: No, only HEK 293 lysate tested. Immunoprecipitates over-expressed HA-tagged SGK2. All bleeds appear equally good.

Amount used: 1mg of lysate and 5ug of covalently coupled antibody. 50% of IP loaded.
