

Antibody characterisation of LRRC8A, S748D, 150-260, bleed 1 to 4, with blotting of recombinant protein

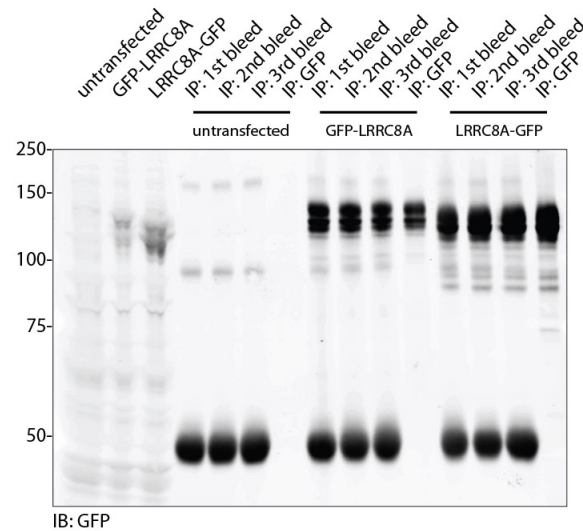

HEK293 were left untransfected or transfected with either GFP-LRRC8A (DU48229) or LRRC8A-GFP (DU48230)  
 IP performed in 3 mg cell lysate with 5 µg respective antibody and 10 µl protein G agarose beads,  
 GFP IP was performed with 10 µl GFP binder beads from Chromotek

IB: LRRC8A (150-260), 1st

IB: LRRC8A (150-260), 2nd

IB: LRRC8A (150-260), 3rd
