

ANTIBODIES

S877C - GST-NKCC1 (1095-end)

1. Has this antibody been tested?

Yes

Has a data sheet been generated?

Yes DU30975

2. Does this antibody immunoblot 1-10ng of recombinant protein?

Was not tested

3. Does this antibody immunoblot endogenous proteins in cell extracts?

No

4. Does this antibody immunoprecipitate recombinant protein?

Was not tested

5. Does this antibody immunoprecipitate endogenous protein?

No

The detection of the band was very faint and dirty, the main purpose of this antibody for us, was to detect endogenous NKCC1 from HEK293 cells and unfortunately none of the bleeds worked, so we didn't characterize recombinant expression.
